

Suggested Vehicle Checklist

Vehicle Checklist

- Full-size spare tire – **MANDATORY**
- Front and rear tow hooks or tow points – **MANDATORY**
- A recovery strap with looped ends is recommended. Recovery straps with metal hooks are not allowed.
- If your vehicle is equipped with a winch, be sure to bring the winch controller and any related recovery gear with you.
- Air compressor or tire inflation device
- We recommend removing and low-hanging running boards with side steps as they reduce your vehicles ground clearance and have the potential to be damaged.
- We recommend outfitting your vehicle with a GMRS radio (like a Midland). Handheld units will be provided to all registered guests without a radio.
- All vehicles must be street legal, registered, and have proof of insurance.
